Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants' arguments over came the pending 112 rejections. The Saeki reference applied in the outstanding O/A is duplicate and cited for the same teaching as Yanagawa. In the rejection of November 22, 2000 element 32 is applied only once and the second applied element is 32d which is different from 32 and fig. 2 32d is shown at one point attached to 32 as dust is removed by 32, 32d inherently removes dust as also explained in fig. 11 and vol. 2 lines 54 to 57. The Examiner will fully consider the reply in due course. .
